MEMORANDUM

TO: Mr. Steve Metcalf, Deputy Secretary
Department of Administration

FROM: Larry Rose, Hydrogeological Technician
Solid Waste Section

RE: The PCB Landfill Monthly Inspection

The PCB Landfill Monthly Report for the December inspection and a copy of the analytical data from the November 18, 1993 sampling episode is enclosed for your review. There has been no change in the overall condition of the landfill since the last inspection.

Measurements were made of the leachate level within the landfill and the leachate sump was pumped. Water table measurements were recorded for each monitoring well.

The data from the sampling episode does not indicate the presence of PCB levels above the detection limits.

If you have any questions or comments about the PCB Landfill, please call this office at (919) 733-0692.
